### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ginger Dreger on December 22, 2004.

The application has been amended as follows:

#### IN THE CLAIMS:

Replace claim 1 with the following claim:

1. A method for determining the relative affinity for binding to an IGFBP of a peptide that competes with an IGF for binding to the IGFBP, which peptide is produced by a phagemid clone present in a phage-displayed library, which method comprises

(a) incubating a phagemid clone displaying the peptide with the IGF in the presence of the IGFBP at high and low concentrations of the phagemid clone,

(b) and measuring the degree to which binding of the phagemid clone to the IGFBP is inhibited by the IGF at each phagemid concentration,

wherein the phagemid clone the binding of which is inhibited only at low phagemid concentrations has a higher affinity for the IGFBP than a phagemid clone the binding of which is inhibited at both high and low phagemid concentrations.

Cancel claim 2.

Art Unit: 1647

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art of record does not teach or suggest screening for peptides produced by phagemid clones that bind to an IGFBP and compete with an IGF for binding to the IGFBP.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
